Dear Dr. Richard Taha,

It is with esteemed pleasure that we recognize the students and faculty from City College of San Francisco for their prestigious efforts during the National Cyber League (NCL) Fall 2022 Competition Season.

The NCL, powered by Cyber Skyline, is a cybersecurity skills competition that contains real-world cybersecurity tasks that professionals perform on a daily basis. Students who participate in the NCL reinforce their learning and develop the necessary skills for the workforce. Students also earn a skills report that recognizes their abilities and can be shown to an employer to demonstrate the student's readiness for the job, further bridging the gap from curriculum to careers.

Students from City College of San Francisco, coached by Sam Bowne, participated in individual and team-based events and the school placed #3 nationally in the Cyber Power Rankings among over 7,500 students from 470 colleges and universities in the NCL Fall 2022 Season.

Their collaborative effort and dedication to the NCL competition is worthy of praise and recognition. It is with our highest recommendation that students from City College of San Francisco be recognized for their admirable achievement that showcased individual skills, collaborative performance, and desire to grow and learn as cybersecurity professionals. We would also recommend the recognition of Sam Bowne for their dedication, support, and encouragement that has enabled the success of the students from City College of San Francisco.

We appreciate your time and consideration to acknowledge these well-deserving students and faculty in their incredible efforts for the NCL Fall 2022 Season.

David Zeichick
